Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Monday 08 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Mild for most with some rain. Turning colder in north.

This Evening and Tonight:
Cloudy for most but milder than recently. Some rain likely in northwestern parts, particularly over Scotland, clearing to colder conditions from the north later in the night. Windy in the north and west.

Tuesday:
Early rain over southern Scotland and Northern Ireland moving south and weakening. Some brighter spells ahead though perhaps some drizzle in the southeast. Cooler with showers in far north.

Outlook for Wednesday to Friday:
Band of rain in the south with overnight mist and fog. Showers and strong wind in the north. Further rain moving into the northwest Friday. Temperatures near or above average.
